Bread Machine Potato Bread "Bread Machine Recipes" Heartland Helps 2000 booklet

- 1 cup mashed potatoes (leftovers are ok)
- $\frac{3}{4}$ cup milk
- 2 Tbsp. butter
- 2 Tbsp. sugar
- 3 cups bread flour
- 1 tsp. salt
- 2 tsp. yeast

Warm mashed potatoes to room temperature in your microwave. Add ingredients in the order suggested by your bread machine manufacturer. Select "white bread, large loaf" setting. After 5 minutes, check if dough is forming a smooth, satiny ball. You may need to adjust moisture by adding a small amount of milk or flour to the dough. Yields: 1½ lb. loaf.
